| **Notification** | |
| **Product Code** | USB2-LINKVS2 |
| **Short Description** | Win 7/Vista USB Link Adapter |
| **Full Description** | The USB2-LINKVS is a data transfer cable for connecting two computers via USB 2.0 type A ports. Designed to work with Easy Transfer which is a new feature built into Windows 7 but will also work with Windows Vista and XP using the drivers supplied. No software is required for Windows 7 making this an ideal solution for 7 users. Users can transfer user accounts, files and program settings directly from one PC to another. Two way transfer can be achieved on Windows 7 to Windows 7 machines, while one way transfer can be achieved on Windows XP/Vista to Windows 7. |
